LockD🔒wn Security Enclosure

LockDown is to protect your classified information and data anytime-anywhere by its AES (Advance Encryption standard), 256bit hardware encryption algorithm + 1-8 digit password. LockDown enclosure can be used not only on all operating systems, but also on all other devices (e.g. smart TV, Media Player, Set-top boxes, NAS etc.) which support an USB host. The LockDown display shows five different steps on a red LED and four blue LEDs and let you know in which menu you are currently in operation. All the functions are simple and easy to use.
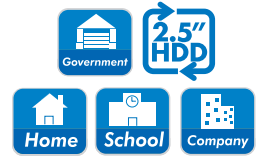

Features:
- Easy to use, and provides perfect security and encryption
- Supports USB3.0 SuperSpeed and compatible with USB1.1/2.0
- Supports standard 2.5" SATA HDDs and 2,5" SSDs
- AES 256XTS encryption Algorithm
- Free from OS! Compatible with any device supporting USB host
- Powerful Real-time Hardware Encryption
- Lockdown by 1-8 digit password (100 million different password combinations)
- Password input by numeric keypad
- Supports HDD capacity: up to 1 TB

Specification:

Power	USB Power
HDD	2.5 inch SATA I, II, III HDD/SSD (Max 9.5mm thickness HDD)
Interface	USB 3.0 Super Speed (Max 5Gbps), USB2.0 compatible. (USB3.0 Max speed is available when it's connected with USB3.0 host device.)
OS	All Operation Systems recognizing USB storage device
Cable length	80cm
Dimension	78 x 135 x 16mm
Weight	75g (w/o HDD)
